

Turffleet Hire

2009

20
YEARS
OF HIRE

Welcome, it's 20 years since Golf and Turf first started hiring out grounds maintenance equipment, and within a year we adopted the Turffleet Hire name.

There have been a lot of changes in the industry since then. More people have come to realise the benefits of hire and there have been some notable entry and exits in the grounds care market. Equipment has become a lot more specialised and expensive to buy and the demands from clients and all grounds care professionals have made the job a lot more challenging. Turffleet Hire has always been at the forefront of the machinery supply business to help you meet these challenges.

Turffleet has kept the same principles we set out with: if we do a good job, customers will keep coming back.

We guarantee the latest equipment from the best manufacturers with John Deere, Stihl, Charterhouse, Blec and Timberwolf amongst our suppliers. The equipment will be in excellent condition and we renew our fleet every 3 years.

We will deliver the equipment at a time to suit you and we give full operating instructions on the use of the machine, staying with the operator until they are satisfied that they will be able to use it safely and efficiently.

We hire out machines for one day, one week, one year, or we can make up a hire package to fit your needs.

You can be sure we will provide the very best back-up and service in the industry.

Over the last few years we have stepped up our expansion programme in both the north and south to meet demand. We have doubled our fleet size, taken on new staff and added new fuel efficient delivery vehicles.

We do not use switch board operators, the phone numbers will get straight through to one of our managers. Give us a call to find out why we are still growing after 20 years.

We look forward to doing business with you.

Simon Reynolds – Hire Director

Transport

When you book your hire, we will give you the cost of delivery and collection.

This cost will include delivery and collection to and from your site, at a pre-arranged time to suit you, from 6am to 3pm.

Our drivers are all very experienced in the use of our machinery and will demonstrate the operation of the equipment and stay with you until you are satisfied that you will be able to use it safely and efficiently.

They will also be happy to offer help and advice about any other items of equipment we have in our brochure.

Why hire

- Minimise inventory
- Right equipment for the job
- No need for storage
- No maintenance costs
- Increase borrowing capacity
- No disposal costs
- Cost control
- Equipment control
- Taxation benefits
- Conservation of capital
- No obsolescence

Long Term Hire

We do realise that every job or work situation has its own challenges, so being able to price the job accurately from the start is vitally important. That is why we offer long term hire rates that are fixed for the duration of the contract and also means you will know all your machinery costs at the beginning and will have no unpleasant surprises. The price we quote will include supply, transport, operator training and maintenance, we can even make a replacement machine available if yours is broken down for 48 hours or more.

So call us for a quote on our long term hire rates for a month, a season, a year or longer. We can even come and look at the job with you to be sure you get the best machine for the task.

Long Term Hire

We do realise that every job or work situation has its own challenges, so being able to price the job accurately from the start is vitally important. That is why we offer long term hire rates that are fixed for the duration of the contract and also means you will know all your machinery costs at the beginning and will have no unpleasant surprises. The price we quote will include supply, transport, operator training and maintenance, we can even make a replacement machine available if yours is broken down for 48 hours or more.

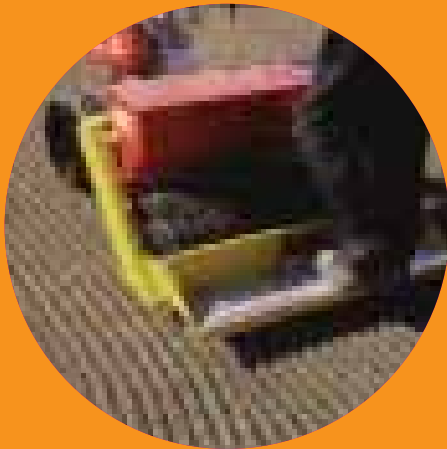

So call us for a quote on our long term hire rates for a month, a season, a year or longer. We can even come and look at the job with you to be sure you get the best machine for the task.

Why hire

- Minimise inventory
- Right equipment for the job
- No need for storage
- No maintenance costs
- Increase borrowing capacity
- No disposal costs
- Cost control
- Equipment control
- Taxation benefits
- Conservation of capital
- No obsolescence

Transport

When you book your hire, we will give you the cost of delivery and collection.

This cost will include delivery and collection to and from your site, at a pre-arranged time to suit you, from 6am to 3pm.

Our drivers are all very experienced in the use of our machinery and will demonstrate the operation of the equipment and stay with you until you are satisfied that you will be able to use it safely and efficiently.

They will also be happy to offer help and advice about any other items of equipment we have in our brochure.

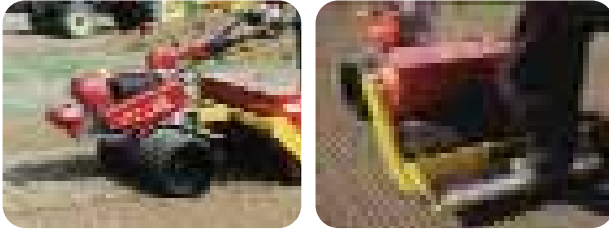

Seeders

Blec Cultipack Seeder

A very manoeuvrable seeder with high work rate (approx 1.5 acres per hour). Rear foot plate saves walking on seeded areas. 8hp Honda engine, 36" seeding width.

Ideal for parks, gardens, sports grounds or golf courses.

BLEC

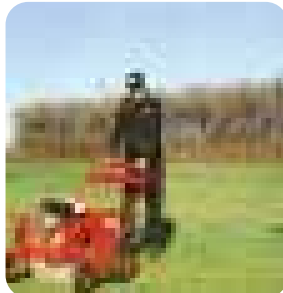

Rates

A smarter way of working

AVANT have produced a compact, powerful and versatile machine for professional use. Pick and choose the attachments you need with your Power Unit.

Other attachments are available on request.

Power Unit only

28-36hp diesel engine. Stepless hydrostatic transmission.

Continuous direct 4WD with four hydraulic motors.

Maximum lift capacity of 1400kg and can tip a load of 1100kg.

Telescopic boom gives lift to a height of 2.9m.

Rates	Day (24hrs)	2+ Days (p/day)	Week (5 days)	2+ Weeks (p/week)
Power Unit only	£85	£75	£350	£300

Post-hole Borer

Planetary drive gives a lot of torque, replaceable teeth and pilot head enable drilling in hard ground and sandstone also.

Rates	Day (24hrs)	2+ Days (p/day)	Week (5 days)	2+ Weeks (p/week)
	£60	£50	£200	£185

Trencher

Helps you easily dig narrow trenches without damaging lawn and garden – ideal for smaller cable or pipe laying. Digging depth of 900mm and width of 100-150mm.

Rates	Day (24hrs)	2+ Days (p/day)	Week (5 days)	2+ Weeks (p/week)
	£140	£130	£465	£425

Flail

Ideal for when the ground is rough and for when a lawn mower can't be used. Cuts efficiently long grass and small scrub and is therefore an ideal tool for road bank mowing and similar jobs.

Rates	Day (24hrs)	2+ Days (p/day)	Week (5 days)	2+ Weeks (p/week)
	£55	£50	£95	£70

Mini Digger • Trailer

Takeuchi TB016

1.5 ton fully hydraulic compact excavator.

Ideal for the operator requiring performance and transportability. The unique hydraulically extendable track system adds greater stability to its working depth of 2.375m.

9kW engine.

Two speed travel.

Artificial Turf Care

Artificial Turf Care

Routine maintenance of natural turf encourages the organic breakdown of debris like leaves, grass clippings and even, after time, litter. However an artificial environment of synthetic grass and (rubber) granulate infill makes natural decomposition difficult. If this debris is left it will over time create an environment where bacteria will flourish. This is most undesirable for an area where physical sports are being played, with the potential for infections to enter open wounds. Also because of the dense sward on artificial fields, there is a risk that dangerous debris like glass splinters could get hidden from a surface inspection, creating a latent danger.

Regular maintenance of artificial turf is necessary to keep playing surfaces clean, germ free and allow water penetration.

Try our Verti-Groom, Verti-Top and Verti-Broom range.

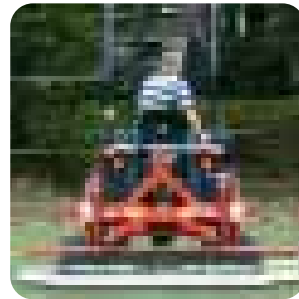

Artificial Turf Care

STEP ONE – Verti-Groom

The Verti-Groom combs through the fill material using 133 thin spring-loaded and flexible tines. Compaction is relieved and a soft, level playing surface is assured. The rear brushes lift the turf fibres leaving them in a plush, upright position.

Working width of 2m and working depth of 0-30mm.

Tractor requirement 18hp.

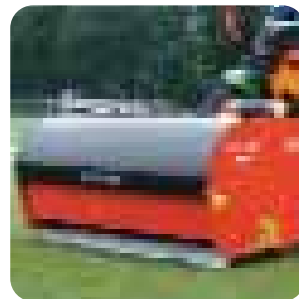

STEP TWO – Verti-Top Cleaning

The Verti-Top uses a rotary brush to collect debris and some infill. It then shakes the material, collecting the debris and redistributing the infill back onto the field, followed by a fixed brush to incorporate the material back onto the grass.

Working width of 1.5m.

Tractor requirement 25hp with 450kg lift capacity.

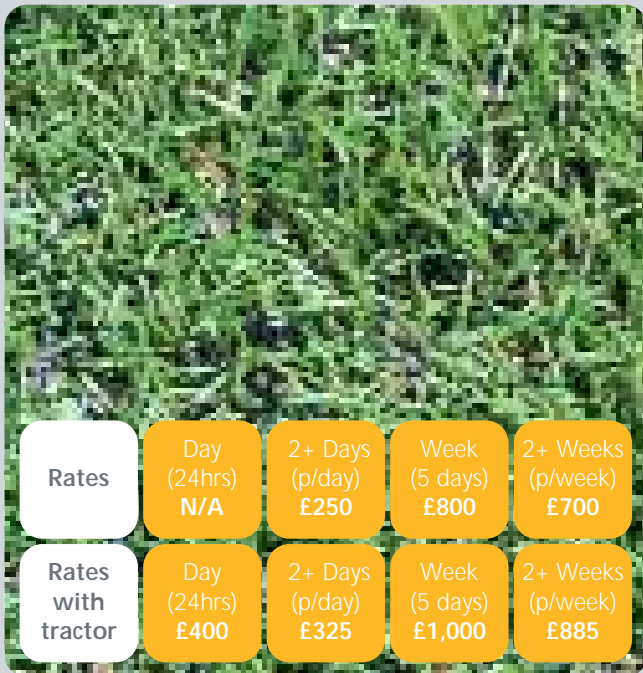

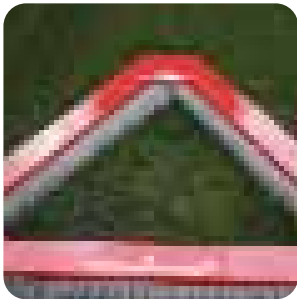

Artificial Turf Care

STEP THREE – Verti-Broom

The triangular bristle brushes make the grass blades stand up cleanly and can also be used to clean large debris from the surface. It can also be used to level the infill which can be disturbed during construction and after use.

Working width of 1.85m.

Tractor requirement 10hp.

Long Term Hire

We do realise that every job or work situation has its own challenges, so being able to price the job accurately from the start is vitally important. That is why we offer long term hire rates that are fixed for the duration of the contract and also means you will know all your machinery costs at the beginning and will have no unpleasant surprises. The price we quote will include supply, transport, operator training and maintenance, we can even make a replacement machine available if yours is broken down for 48 hours or more.

So call us for a quote on our long term hire rates for a month, a season, a year or longer. We can even come and look at the job with you to be sure you get the best machine for the task.

Transport

When you book your hire, we will give you the cost of delivery and collection.

This cost will include delivery and collection to and from your site, at a pre-arranged time to suit you, from 6am to 3pm.

Our drivers are all very experienced in the use of our machinery and will demonstrate the operation of the equipment and stay with you until you are satisfied that you will be able to use it safely and efficiently.

They will also be happy to offer help and advice about any other items of equipment we have in our brochure.

Hand Held Equipment

Stihl FS 450 Brushcutter

Ideal for general mowing in confined spaces and around trees or fence posts.

Can be used to thin out growth in dense scrub or for cutting very long growth with limited access.

Official dealers of Yamaha Golf Cars

Burdens Golf & Turf Equipment Ltd are proud to announce that they are now official suppliers of Yamaha Golf Cars for the South of England. The Yamaha franchise is a globally recognised brand and Burdens Golf and Turf are excited at the prospects of working with such a progressive and highly respected company.

The Yamaha Golf Cars are hugely versatile and stylish cars that fulfil a multitude of tasks and all come with the quality that you can guarantee in a Yamaha produced vehicle. The inimitable style of the Yamaha vehicles is combined with their revolutionary approach to building and performance – including the ability to build with fewer parts, which leads to lighter weight, which leads to superior hill-climbing ability, a 100% greaseless chassis and the lowest maintenance costs in the industry.

The range of cars we offer ensures something for every requirement and in addition to being fantastic cars for the golf course, these fantastic machines are perfect for events such as gigs, sporting events, film sets, festivals and also large arenas such as sporting stadiums, airports and shopping centres. The range of versatility is absolutely unrivalled.

Here at Burdens we can offer the Yamaha Golf Cars to buy or to hire, depending on your requirement that means utilising the benefit of these machines couldn't be more simple.

The Burdens Group

Established in 1972, the Burdens Group is a leading distributor of agricultural, construction, horticultural and groundcare machinery. We offer a professional, customer-focused service and are able to tailor our products to your exact needs.

Agriculture

As Lincolnshire's leading John Deere dealer, we provide a complete range of John Deere agricultural machinery, including tractors, combine harvesters, balers, sprayers and Gator utility vehicles – both new and used.

We also supply machines from other leading manufacturers including Simba, Kverneland, Amazone and Dieci.

Horticulture

Burdens Horticulture supply specialist soil preparation, planting, maintenance and harvesting machinery for all salad and vegetable crops across the country. In conjunction with our Goodacres division, we are able to supply and install specialist grading and packaging systems for salad and vegetable crops.

Goodacres

Since the integration of the Goodacres business into the Burdens Group in January 2007, our overriding philosophy hasn't changed – we still believe in a continuing commitment to a quality service to our customers which is backed up by our fully qualified engineers. This is further strengthened by our suppliers Tong Peal, Swift Lift and Morray.

Construction

Our franchise brands include Neuson dumpers, Takeuchi mini excavators and tracked loaders, Dieci telescopic handlers, Dynapac soil plates, asphalt plates, rollers and Indespension trailers. As well as new machinery, we also have used items available.

The Mower Centre

The Mower Centre is our consumer branded retail outlet selling a range of domestic gardening equipment, from mowers through to hedge cutters and strimmers – it's the discerning gardener's first choice for quality lawn mowing and garden equipment.

Golf & Turf

Burdens Golf & Turf provides a complete range of professional groundcare equipment to a wide variety of industries and organisations – from professional football clubs and sports venues, through to hotels, holiday parks, airports and local councils.

Naturally, we have a comprehensive range of John Deere machinery including aerators, sprayers, gang mowers and compact tractors – but we also supply machinery from McConnell, Turfmech and Charterhouse.

Turfleet Hire

As part of The Burdens Group Ltd., one of the UK's leading John Deere Dealerships, we have the advantage of being able to react instantly to any changes in the industry. This means that we are always adding new equipment to our fleet.

Our prices are amongst the most competitive in our industry, combined with a level of service we believe to be unmatched.
