0019

The Speedseed has been completely redesigned, making it the most rugged, economical and efficient version to date. The new Speedseed 1600 is equipped with individual cast spiker rings which enable the operator to make turns while in operation, saving time and effort.

SPEEDSEED 1600

The Vshaped spikes produce holes which funnel the randomly dispersed seed, concentrating them at the proper depth for best germination. The new high volume seed box utilizes a proven roller design with quick-change gears, allowing the machine an infinite range of feed rates with all types of seed, from very large to very small (bents) seed types. Finishing up is a large smooth-roller, which can be optionally equipped with a second set of spiker rings, followed by the rear brush. With operating speeds up to 7.5 miles per hour, the Speedseed 1600 provides fast, accurate and economical overseeding.

Quick-Change gear drive system allows fast delivery rate changes. Spare gears stored in seed hopper.

WORKING SPECIFICATIONS

Weight	992 lbs.
Spacing	1.18" square
Depth	3/16" to 3/4"
Holes per sq/ft	92
Working Width	62"
3-point type	Cat.1-2
Seed Box Cap	8 cu/ft.
Delivery Rate	Infinite
Rec. Tractor	30 HP w/ 1212 lift cap.
Options	Tow Frame Wheel Kit 2nd Set Spiker Disks

FEATURES / BENEFITS

FEATURE	BENEFIT
Working Speed-7.5 mph	Saves time and money
Large Seed Hopper	Less time spent on refills
Spiked Disk Roller	Random dispersement of seed with no drill lines
New Feed System	Handles all seed types-even bents-with great accuracy
Quick-Change Feed Gears	Fast and easy rate adjustment
